

PROFESSIONAL SUMMARY

Industrial-level Software & Data Engineer with hands-on **expertise** in TypeScript, Python, and full-stack development. Built and shipped **13+ real-world live products** **5+ AI projects**. From an Healthcare SaaS (**AuraSutra AI**, 6 potential clients, ₹22K hackathon win) to an AI career planning platform for Tier 2/3 India (**Skill Lover**). Currently exploring Blockchain development (Solidity, Ethereum) and build my own **Agentic AI** systems with working autonomous agents (personal). **Hackathons Winnen:** IIT Bhilai and SSTC national level. Seeking roles in Software Engineering, AI/ML, Full-Stack or Product Management.

TECHNICAL SKILLS

- **Languages:** Java, Python, Javascript, TypeScript, Solidity (learning)
- **Frameworks & Libraries:** React.js, Next.js, Node.js, Express.js, FastAPI, Tailwind CSS, Framer Motion, Scikit-learn, Pandas, NumPy, Matplotlib, NLP, RAG, Fine-tuning, Axios
- **Blockchain & Web3:** Solidity (learning), IPFS via Pinata, Smart Contracts (fundamentals)
- **AI & Agentic Systems:** Gemini Pro, Groq (LLaMA 3), Local LLM integration, Prompt Engineering, Agentic AI pipelines, Autonomous agents, RAG, Fine-tuning, Judge0 API, Langraph, Function call, MCP, A2A
- **Cloud & DevOps:** AWS (EC2, S3), Docker, Firebase, Vercel, Git/GitHub, ZOHO Site24x7 (monitoring), CI/CD basics
- **Databases:** PostgreSQL (Neon, Supabase serverless), MongoDB, Firebase Firestore, MySQL
- **Developer Tools:** Figma, Telegram Bot API, Clerk (Auth), Razorpay (payments), WhatsApp API, Jupyter
- **Soft Skills Leadership:** · Team Management · Agile Sprints · Negotiation · Prompt Engineering · Product Thinking · Public Speaking · Observation & UX Thinking

EXPERIENCE

- **Internship (2 months) | @Botivate LLC** *Feb 2026 - April 2026*
 - Contributed to **5 Live projects** using NodeJS, React, FastAPI, Torch, System designing, API & AI training for product
 - Related to CRM app, Production app, Expense tracker, Checkout & Delegation app, AI powered Jewel app; Full stack with a team of 2 developers under me I lead the team & was the **Techno expert with client**.
- **Internship (4 months) | @Innodeed Software Solution** *July 2023 - November 2023*
 - Contributed to **2 projects** using Spring Boot and React.js, delivering 5+ UI components and backend optimizations (~20% faster)

PROJECTS

- **A++ Scored – Skill Lover: AI-Powered Career Planning Platform (SaaS)** *February 2026*

Tech: Next.js 16 · React 19 · Google Gemini Pro · Tailwind CSS · Framer Motion · Clerk · Neon (PostgreSQL) · Supabase · Vercel Status: Live · Credit-Based SaaS Model

 - Built an AI career co-pilot targeting 40 Cr+ Tier 2/3 Indian students who lack access to paid career counseling
 - **AI Roadmap Generator:** produces personalized week-by-week career plans for Job Seekers and Entrepreneurs across 3 intensity modes (Chill / Regular / Intense) – replacing 40–60 hrs of manual research
 - **ATS Resume Analyzer:** parses PDF/DOCX resumes, scores them 0–100 across 6 weighted sections, identifies missing recruiter keywords, and supports job description matching
 - Implemented a credit-based monetization model – 2 free credits on signup, paid credits for continued AI usage
 - Curated free Resource Library (courses, tools, templates) filterable by difficulty and platform – zero credit cost
- **Hackathon Winner – AuraSutra: Healthcare AI-EcoSystem | @SSTC** *November 2025*

Award: ₹12,000 · SSTC National Level · **Tech:** Next.js · Express.js · PostgreSQL · Local LLM

 - Deployed full-stack app guiding 50+ rural and urban users through AI-generated health action plans
 - Integrated Local LLM to auto-generate 85% goal-aligned prescriptions from user inputs
 - Engineered frontend + backend with sub-300ms API latency; achieved 99.9% uptime with auto-scaling across 3 environments
- **Hackathon Winner - LalaAm: Screen Addiction Reversal App | @IIT Bhilai** *December 2024*

Award: ₹10,000 · National Level · **Tech:** React Native · Google Forms (primary research)

 - Led a team to prototype a gamified mobile app reducing screen time in kids aged 4–12
 - Analyzed 50+ psychology studies to engineer habit-reversal mechanics and child-safe UX flows
 - Validated with 30+ parents via structured primary research (Google Forms); achieved 40% screen time reduction among early testers

- **CodeOnMe - Online Judge & Coding Platform** Aug 2025
Tech: Next.js · Supabase · Judge0 API Status: Live · Built for Indian College Students · August 2025
 - Developed a LeetCode-type coding platform with real-time code execution and test case evaluation via Judge0 API
 - Tracks user submissions, success rates, and progress — built specifically for college assignments and placement prep
 - Facilitates peer-to-peer collaborative problem solving; designed for low-bandwidth environments
- **Photogram - Real-Time Social Media Platform** Jan 2026
Tech: React.js · Firebase (Auth · Firestore · Storage) · Material UI
 - Full-stack Web2 social platform with real-time feed, friend connections, and media uploads via Firestore listeners no page refresh
 - Firebase Auth with session persistence and password recovery; Lighthouse score 95+ across mobile and desktop
- **Anbiden_Now_bot - Telegram Anonymous Chat Bot** October 2026
Tech: Python · asyncio · Telegram Bot API (ConversationHandler) Live: [@Anbiden_Now_Bot](#) · 30+ active users in first month
 - Built real-time anonymous 1:1 chat pairing on Telegram with /next, /stop commands and anti-spam filters
 - Fully async architecture using Python asyncio — handles concurrent user sessions with zero blocking

EDUCATION

- **Bhilai Institute of Technology College (Bhilai) | (Ongoing)** 2024-26
 - Master's in Computer Application. Hosting events as managerial skills & delegation | 8.2 CGPA
- **Govt. V.Y.T. Post Graduate Autonomous College (Durg)** 2021-24
 - (BCA) Bachelor's degree In Computer Applications
 - CGPA : 8.2

CERTIFICATIONS

- Coursera: Data Science, Data Analytics, and Coding for Data – strong focus on practical, hands-on learning
- IIT Bombay (Spoken Tutorial): Java & HTML – completed with highest credit score | 95%
- Great Learning: Data Manipulation using Python, SciPy library applications
- Udemy: Full Stack Web Development by Angela Yu – covered frontend/backend essentials with real-world projects
- Other Skills: Intermediate proficiency in Python, SQL, and Java
- NPTEL: Programming in Advanced Java | Score : 90%

MEMBERSHIP

- **Student member | @Indian National Academy of Engineering (INAE)** December 2024 -2029
- **Executive member | @Association of MCA, Bhilai Institute of Technology, Durg** September 2024 -2026
 - Conducted successful events such as Blind coding
 - Hosted & called advanced Generative AI & fine tuning seminar speaker

ACHIEVEMENTS

- Hackathon Win (IIT Bhilai national level): Awarded ₹10,000 for LalaAm mobile app.
- Hackathon Win (SSTU national level) : ₹12,000 for AyurSutra AI-Powered app.
- Contributed to solution design & dev in 3+ national-level hackathons, including IIT Bhilai Youth Conclave. In HackIndia 2025, ranked in Top 11 out of 85+ teams through strategic prototyping and technical execution.
- Honored by Indian National Academy of Engineering (INAE), New Delhi.
Granted membership for 10 years
- Rank #1 in BCA final
- Rank #1 in 10th class, awarded by Dainik bhaskar
